

A Member of the New York 10-13 Associations of America, Inc.
A National Organization of Retired & Active New York City
Police Officers.

Greetings to my Brothers/ Sisters in Blue.

Our 2022 Christmas party was a remarkable success, with 75 members having a fun time. The food was excellent and the camaraderie even better. The board received many text messages thanking us. But like I said to many; the current board of Treasure Coast 10-13 could not be successful without the membership. So, in closing out the year 2022 the board would like to thank the membership for making this organization as successful as it is.

Phil put on his comedy show during dinner. He definitely missed his calling in life. We took a lot of photos, and they will be posted on the website and on our Facebook page.

During our November meeting, Tom B informed us on how our donations went to help the victims of Hurricane Ian. Thousands of dollars went to purchasing batteries. Because unbelievably, some victims are still without power.

NYC Wins Key Ruling in Plan to Mandate Medicare Advantage Plan for Retired City Workers. The decision, from an independent arbitrator overseeing the health care dispute, appears to pave the way for the administration to implement the Medicare Advantage Plan as the only insurance option available to municipal retirees.

U.S. Senator Kirsten Gillibrand (D-NY) is pushing Congress to pass additional funding to bolster the World Trade Center Health Program, which provides critical health care access for those affected by the Sept. 11 terror attacks.

The program was established by Congress in 2011 to monitor and provide medical treatment to responders and survivors of 9/11. But the formula used to determine how the money is distributed will not be able to keep pace with the anticipated costs, which means the program will have to stop enrolling new members in October 2024.

Gillibrand touted the 9/11 Responder and Survivor Health Funding Correction Act, which would close the funding gap by delivering \$3.6 billion of supplemental funds. This includes \$46 million for the foundation of a new research cohort that would study the impacts of 9/11 on the almost 35,000 people who were children at the time of the attacks.

The company, Managed Care Advisors-Sedgwick, won the contract in 2021 to serve some 25,000 responders and survivors in the World Trade Center Health Program's national network, but has yet to meet the core contract requirements since beginning work in August. The Centers for Disease Control and Prevention has no plans to terminate a contract with a company that is struggling to provide medical services care for 9/11 responders around the country, and the agency is declining to say what penalties the firm could face, according to a new letter from a CDC official.
